Hydraulic Scissor Lift

Hydraulic Lift Table

HYDRAULIC SCISSOR LIFT

The scissor mechanism is a mechanical linkage system used to create vertical motion or extension. It consists of a series of interconnected, folding supports that resemble the shape of a pair of scissors, hence its name. A scissor lift reduce human labour by minimizing physical strain, improving efficiency, and enhancing workplace safety.

APPLICATIONS

-  Warehouses,
-  Construction sites
-  Production industry
-  Printing and injection moulding
-  Automobile industry
-  Manufacturing units
-  Exhibition
-  Aviation
-  Supermarkets and retail
-  Agriculture
-  Event management
-  Can be used as dock leveller

Capacity (KG)	Platform Size (MM)	Minimum Height (M.M)	Maximum Height (MM)
500	1600 X 1000	350	1350
750	2000 X 1200	400	1600
1000	2400 X 1500	500	2000
1500	3200 X 1800	600	2600
2000	4800 X 2800	800	4000

HYDRAULIC LIFT TABLE

A hydraulic lift table is a platform that moves up and down using hydraulic pressure. It is designed to lift heavy loads smoothly and efficiently. The table consists of a sturdy base and a hydraulic system that provides controlled movement. Their adjustable height settings ensure ergonomic positioning, increasing productivity while reducing workforce requirements.

APPLICATIONS

-  Warehouses,
-  Construction sites
-  Production industry
-  Printing and injection moulding
-  Automobile industry
-  Manufacturing units
-  Aviation
-  Supermarkets and retail

Capacity (KG)	Platform Size (MM)	Maximum Travel (MM)
100	600 X 600	5500
200	800 X 800	5500
300	900 X 900	5500
500	1200 X 1200	5500
1000	1800 X 1200	5500
1500	2400 X 1200	5500
2000	2400 X 1800	5500

ABOUT US

Tolas is a reputed and leading lift manufacturing company based in Rajasthan, established in 1951. We are a third-generation company specializing in designing and manufacturing the most efficient machines with unique designs, using the latest engineering concepts and models. We are equally passionate about our after-sales service, ensuring zero compromise on excellence and timelines. Our new product line—[Hydraulic scissor lifts](#) and [Lift tables](#)—marks a new chapter of success in our journey. These products help industries mechanize material handling, mitigate risks, reduce manual labour, and increase workplace efficiency.
